ROSENBERG COOLEY METCALF CLINIC CHANGES NAME TO THE ORTHOPEDIC PARTNERS: *AN RCM CLINIC*

PARK CITY, UTAH (May 15, 2021) — The acclaimed Rosenberg Cooley Metcalf Orthopedic Clinic, a comprehensive orthopedic specialty clinic based in Park City, Utah, will now provide their world-class care under a new name, The Orthopedic Partners: an RCM clinic.

“The Orthopedic Partners have been providing orthopedic care for over 25 years, and our clinic has grown since its inception from 2 subspecialty physicians to 8 and services continue to grow,” said Dr. Charley Lind. “By expanding our areas of medical expertise, we are able to provide more extensive care to our current and future patients.”

The Orthopedic Partners aims to carry its strong reputation held by the Rosenberg Cooley Metcalf brand into this next chapter of patient care. What began with a sole focus on orthopedic knee and shoulder injuries has evolved into an orthopedic subspecialty clinic with experts in acute knee surgery, shoulder surgery, hip and knee replacement, foot and ankle surgery, hand and wrist surgery, orthopedic trauma and non-operative musculoskeletal care. The clinic anticipates further growth to harmonize with the needs of the communities it serves.
